

Project Overview

GigHire is a hybrid platform combining features of freelance gig portals like Fiverr and job boards. It enables clients to browse both individual service-based gigs and traditional job postings. The system includes four primary roles: Admin, Client, Gig Owner, and Job Owner. Gig Owners can create and upload service gigs, while Job Owners can post job opportunities. Clients have the flexibility to view and apply to both gigs and job posts. The Admin manages platform-wide content, approvals, and user control through a centralized dashboard.

The project team consists of three members: one handling backend development and the admin dashboard, and two focused on UI/UX design and frontend development. The UI/UX roles are divided so that one focuses on gig-related features (Gig Owner & related Client interfaces) and the other on job-related features (Job Owner & related Client interfaces).

Role-wise Functionality & Page Requirements

Admin

- Admin Dashboard (for full control)
- User management (view/block users)
- Approve/reject gigs & jobs
- Category & tag management
- Reports & analytics

Client

- Home Page
- View Gig Listings
- View Job Listings
- Apply to Job / Book a Gig
- Profile Page (Past gigs/jobs, saved listings)
- Notifications / Messages

Gig Owner

- Gig Upload Page
- Manage Gigs (Edit/Delete/Stats)
- Orders Received
- Profile Page

Job Owner

- Job Post Page
- Manage Job Posts
- View Applicants
- Hire Applicant
- Profile Page

Work Division Among Team Members

Team Member	Responsibility
Usman	Backend Developer + Admin Dashboard
Khushnood	UI/UX – Gig-related (Gig Owner interface + Client's gig section)
Ayesha	UI/UX – Job-related (Job Owner interface + Client's job section)

Navbar Design

Navbar should be **dynamic** based on user role after login. Here's a universal + role-specific breakdown:

Client Navbar (After Login):

- Dashboard
- My Bookings / Applications
- Gigs
- Jobs
- Messages
- Profile

Gig Owner Navbar:

- Dashboard
- My Gigs
- Orders
- Messages
- Profile

Job Owner Navbar:

- Dashboard
- My Job Posts
- Applicants
- Messages
- Profile

Admin Navbar:

- Dashboard
- Users
- Gigs
- Jobs
- Reports
